

MyStar now includes a mobile app branded in your dealership's name. Available for iPhone, Android, Windows 8, and Blackberry platforms, the app gives your customers the option of one-touch calling and the ability to submit electronic requests.

Download instructions are included in the "Welcome" email.

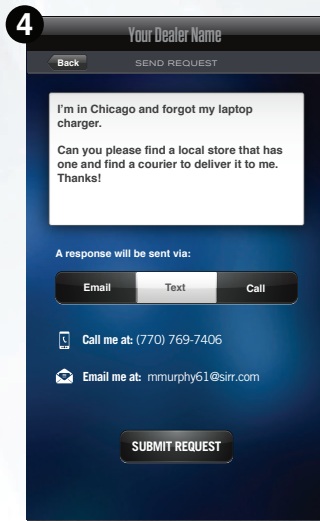

For added safety and security, users can even send their GPS location with each request. Push notifications allow for easy communications with your clients.

Live Assist

Available For:

1 - Registration is simple. Just enter in the registered phone#.

2 - Your dealership name and logo will be on the home page.

3 - Users can call your personal assistant service with one button.

4 - Users can also submit requests through the app.

5 - Users can send their geolocation with each request.

6 - GPS settings are set by the user and users are never tracked.

7 - The "My Dealership Info" tab shows users valuable dealer information.

8 - You can even send users push notifications for marketing and reminder messages (Available 2015).
